Report From Palestine:

The Crisis of Occupation

It has been one and a half years since Israel's latest brutal assault on the people of the occupied territories of Palestine. Over 2,000 people including 500 children were killed in that assault. It was only the latest in a series of invasions and assaults in 2012, 2009, 2006, and countless others.

But the violence is not only in the big dramatic invasions. It is in the day to day life of a people under occupation. Come hear an account and an analysis from a recent visitor to the occupied territories.
